My guidance for attempting to break the world record for the Furthest Surface Journey in a Male Chastity Device

If you dare to try a very unusual feat such as this, first toughen your mind. You're going to need to since this type of journey will almost certainly test your patience, tenacity and ability to keep focused. If you're ready, choose an interesting route and go before life gets in the way.

To start, gear up for a few rules, such as:

- ensure you take the required regular video.
- secure the key in place properly.

I wouldn't personally consider re-trying this right away, because I remember the challenges and I know they require great planning to avoid and overcome. But if you're up for such a challenge, why stay home and endure life in a rut? The world is out there; how you choose to experience it is up to you.
