My guidance for attempting to break the world record for the Most envelopes torn in half in 30 seconds

Many people recycle paper these days. And I know a new use for that paper! If you are interested in trying this world record, may I suggest that you save your money and head to your recycle bin instead of to the envelope shelf at your local shop. Whatever you do, get practising and become good at it. Then make sure you master a suitable technique to speed up what you can do.

To start, gear up for a few rules, such as:

- use a stopwatch.
- tear each envelope completely in half.

This is really simple. But I advise you to think it over and concentrate nevertheless. You'll have limited time, so skill is the secret for this one.
