

Fact File

My guidance for attempting to break the world record for the Most AA batteries held in the hand

If ever there was a tough attempt for an insignificant result, I think this is it! Depending on how large your hands are, how good your hand-eye coordination is and how fast you can think, this could be easy or difficult. I found it quite a challenge, I must say.

To start, gear up for a few rules, such as:

- use AA batteries only.
- use a bare hand.

Be prepared to practice until the sun rises, unless, of course, you have amazing abilities which most people don't. Oh, and last point: recycle the batteries please.

Still keen? WorldRecordChase.com is happy to mentor others wishing to attempt this world record, at reasonable rates.

Enjoy.
