My guidance for attempting to break the world record for the Most dried peas moved in one minute using a straw

Peas should be played with before being eaten – that’s my view. And to prove it, I’ve just got the world record for moving peas with a straw. Do you also want to play with dehydrated peas? I’d like to join you.

To start, gear up for a few rules, such as:

- use the right size of straw.
- measure the distances properly.

So don’t be shy. What you could succeed at far outweighs the embarrassment you could suffer.

Still keen? WorldRecordChase.com is happy to mentor others wishing to attempt this world record, at reasonable rates.

Enjoy.
